📍 Dubai, United Arab Emirates

Passionate Full-Stack Web Developer with a profound mastery of Frontend and Backend Technologies. Exceptionally skilled in crafting dynamic web applications using React, JavaScript, Nodejs, MongoDB, MySQL, and Firebase. A proven track record of building, integrating, and hosting AI projects seamlessly into websites, delivering cutting-edge solutions that push the boundaries of technology. Committed to staying at the forefront of advancements, I drive transformative results by combining AI prowess with web development expertise.

### Skills

- JavaScript
- TypeScript
- ReactJS
- NodeJS
- HTML/CSS
- Python
- TensorFlow
- PyTorch
- Java
- C++
- MySQL
- MongoDB
- Firebase Database
- NoSQL
- GitHub

### Experience

#### Full Stack Developer- Freelancer

Jul 2022 - Jun 2023

- Collaborate closely with clients to gather project requirements, define scope, and provide expert technical insights to optimize functionality and user experience.
- Utilize a wide range of technologies, including React, JavaScript, TypeScript, Node.js, Express.js, Python, MySQL, MongoDB, and Firebase, to architect and develop responsive and interactive web applications.

#### Full Stack Developer | Jemzawy Company

Jun 2023 - NOV 2023

- Contributed to the creation of two distinct dashboards with the following functionalities:
- **Speech Recognition and Audio-to-Text Dashboard**
- **Video Recording and Storage Dashboard**
- **Admin Dashboard**
- The technologies employed during this role included ReactJS for front-end development, CSS for styling, JavaScript for dynamic functionality, Node.js for server-side operations, and Firebase Database for data management.

### Projects

#### Family Banking System - Full Stack Application | IEEE Competition

- Built this app using ReactJS, and Nodejs, and hosted on Firebase. Supports user authentication with mobile number and email. Used Firestore Database as server side to host users' data, and connect it to Mobile Application.

### Education

Bachelor Degree in Computer Science (AI), British University in Dubai

Sep 2021 - Sep 2024

- Founder of the Programming Club at the University.
- Hosted programming and UX workshops and tutorials.

Graduated From Artificial Intelligence Course of Samsung Innovation Campus
